Power of Steel, Husteel

We are HUSTEEL
a leader of steel pipe industry
in Korea who connects
the world between steel and steel,
men and nature.

The steel that was the symbol of civilization has now become our life.

The steel that supported the national economy has now become a major industry in the world. HUSTEEL has been with the steel for more than a half century and now we have begun to play a key role in the world steel pipe industry.

HUSTEEL will walk faithfully toward the wide-open future with an ever persevering spirit and passion; and play the role of a leader in global steel pipe industry which will prevail over the world beyond Korea!

Everlasting The Future

**HUSTEEL, a keystone
in the steel industry,
connects the world to
a better millennium!**

Since founding in 1967, the steel company HUSTEEL has grown for half a century. Now we stand as representatives of steel pipe companies in Korea. We, as a global pipe leader, have been nourishing our resolve to realize even bigger dream. As a result, we have grown into a valuable company that moves the hearts of customers with our production capacity, high-tech equipment for global competitiveness and with the mind which considers its fellow men and environment to be of utmost importance, we continue to exceed expectations.

Global Pipe Leader with U

Husteel vision is to be reborn into the leader of the global steel pipe industry.

"The duty of steel has always been to support the backbone of the nation."
With inextinguishable flame, HUSTEEL has raised the standard of the industry, raising the competitiveness in Korea. HUSTEEL has been faithful in its role as a leader in global steel pipe industry through innovative technologies and high-quality products; acquiring various overseas distinguished standards such as API, ASTM and JIS of Japan including the award of 200 million dollars export tower in 2012. Also, in 2015, HUSTEEL has established company's vision as "Global Pipe Leader with U" to begin a new initiative as a formidable global steel pipe competitor

VISION "Global Pipe Leader with U"

It contains the meaning : To be able to become as a global leader, one must foster the mutual growth between their members and their clients.

History of HUSTEEL

With half-century history of HUSTEEL, as the representative for steel pipe industry in Korea, HUSTEEL will continue to be the life blood of steel industry in Korea!

With a strong foothold in the field of steel manufacturing, HUSTEEL specializes in the manufacturing of high-quality steel pipe products through the reliance on independent technology and accumulated knowledge. The history of HUSTEEL is the history of the steel pipe industry in Korea.

1967~1985

1986~2000

2001~2007

2008~2018

- 1967** Founded Korea Steel Pipe Co., Ltd.
- 1973** Listed on the stock market
- 1974** Completed Incheon Factory
Received the Presidential Prize and the Prime Minister's Prize for the company of export contribution
- 1980** Founded Saudi Steel Pipe Company as a joint-venture
Saudi Steel Pipe Company
- 1982** Completed the head office at Moonraedong
- 1984** Received the Steel Tower Order of Industrial Service Merit

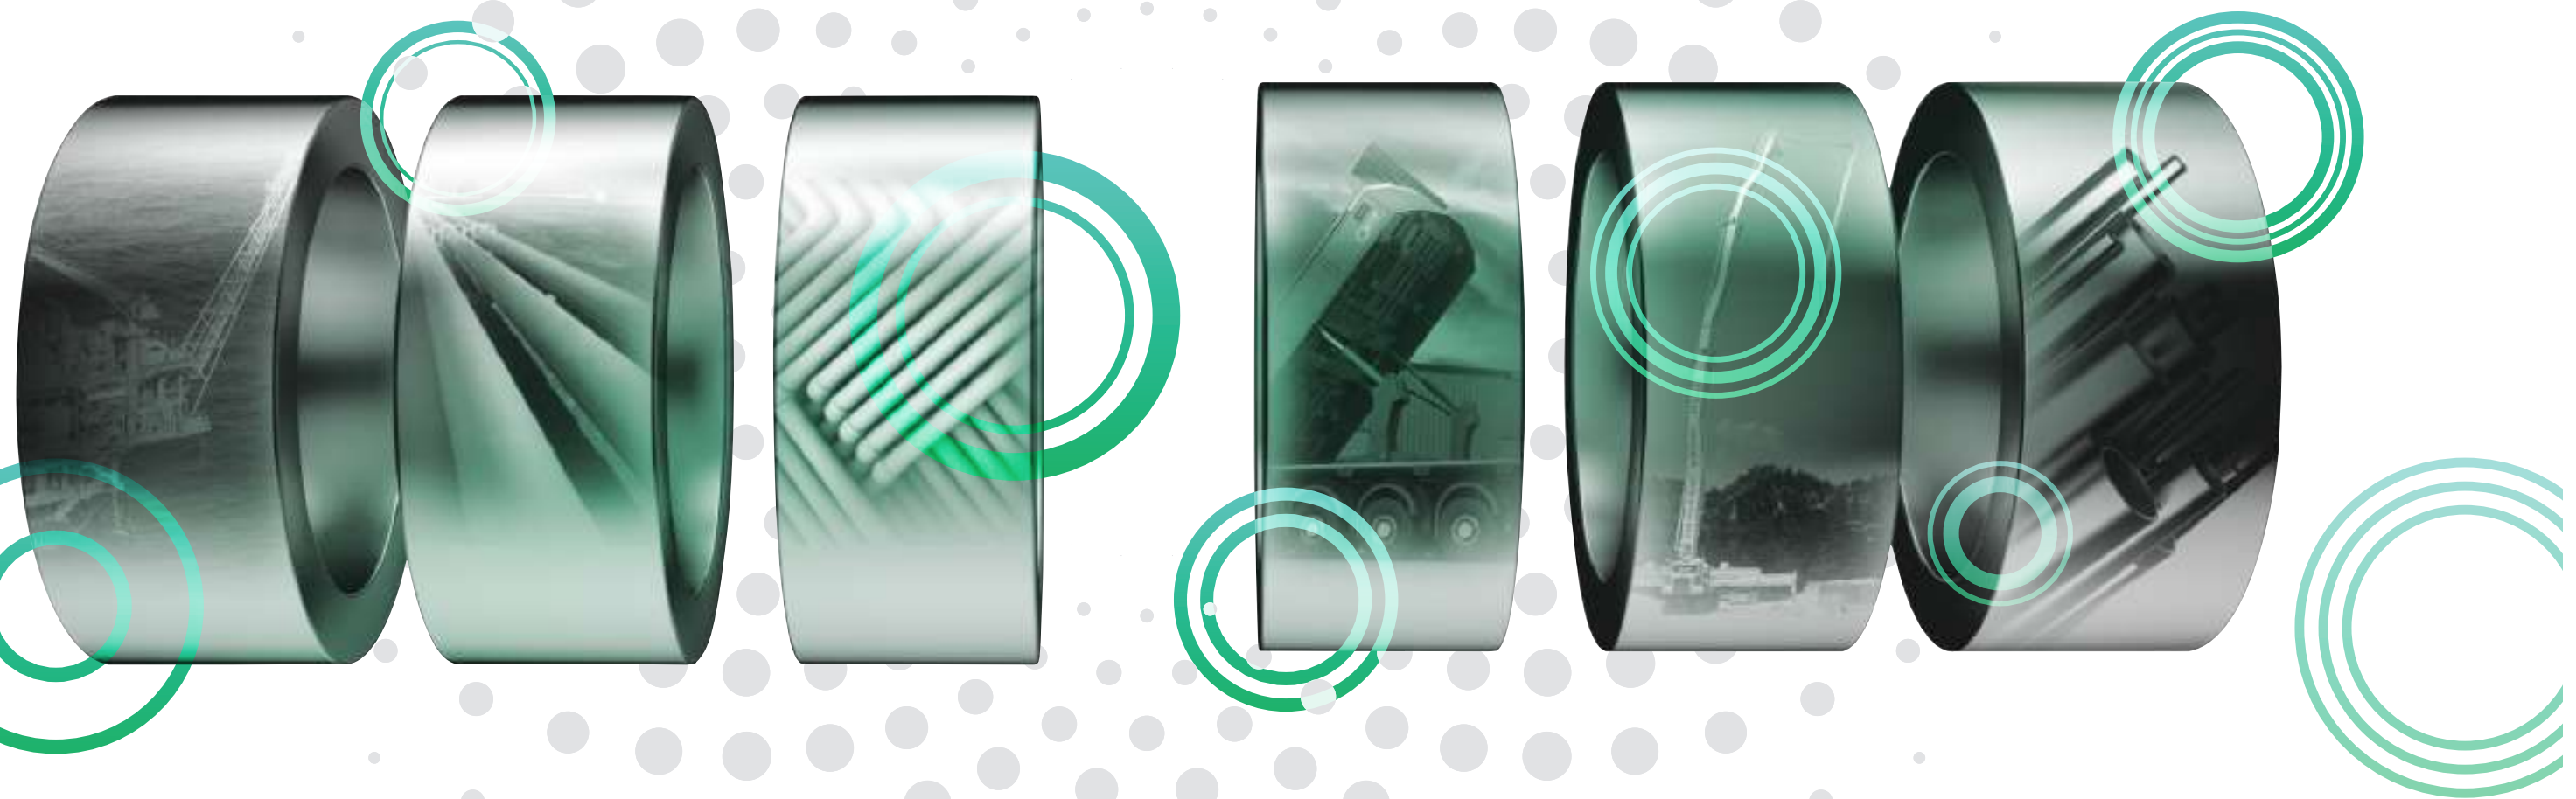

- 1986** Acquired Japanese Industrial Standards (JIS)
- 1988** Received the Silver Tower Order of Industrial Service Merit on the Businessmen's Day
- 1995** Completed Daebul Factory (Korea's largest 24" Mill)
Acquired ISO 9001
Acquired API Monogram for Daebul Factory
- 1997** Selected for an excellent company of labor-management cooperation in 1996
- 1999** Acquired ISO14001
Environmental Management System certification

- 2001** Selected for an excellent company of new labor-management culture
Incorporated to Affiliates of SHINAN Group
- 2002** Renamed to HUSTEEL Co., Ltd.
- 2004** Selected for a company with the best quality competitiveness in the field of steel pipes by the Korea Management Association
- 2005** Completed Dangjin Factory (Introduced FFX-Mill first in Korea)
- 2007** Won 100 Million Dollar Export Award

- 2008** Introduced QT Equipment
- 2012** Introduced High-strength Heavy Wall Thickness Pipe Equipment
Won 200 Million Dollar Export Award
- 2014** Founded affiliated R&D Center
- 2015** Began operation of Daegu Factory (Stainless Steel Pipe)
- 2016** Introduced 3" piping equipment exclusive for tubing
- 2018** Founded a corporation in Canada

Product Introduction

The world is moved by forces which operate outside the limelight, and it is in that center where HUSTEEL's product resides!

HUSTEEL's products can always be found just at the cusp of the spotlight.

In projects pertaining to the mining and transporting petroleum and natural gas; to various steel pipes which are used in industry and everyday life.

We have introduced the equipment for high-strength heavy wall thickness pipe in Korea and supplied high-quality products which have been acknowledged universally.

The proud products of HUSTEEL are the cornerstone of the steel industry which connects the world.

PRODUCTS GOODS

The promise to provide high-quality products which can endure any environments is the foundation on which we cultivate the trust of our customers!

The promise is to supply stable products for any severe environments, from arctic conditions to scorching environments. HUSTEEL has kept the trust through the adherence of its value and dedication to its craft along with the promise to deliver with only the highest quality products needed in diverse industries. From steel pipe for oil well(OCTG) to STS steel pipe, HUSTEEL has been acknowledged for its competency and integrity through all manufactured products

1. Steel Pipe for Oil Well / OCTG

Steel pipe (API 5CT) used to mine petroleum or natural gas

2. Oil Pipeline

Steel pipe (API 5L) used to transport mined petroleum or natural gas

3. Concrete Transporting Pipe

Single and twin steel pipe mounted to a concrete pump truck to transport concrete and used for single and twin transporting pipes

4. STS Steel Pipe

Stainless steel pipe used in petrochemical industry, water supply pipe, boiler, and heat exchanger

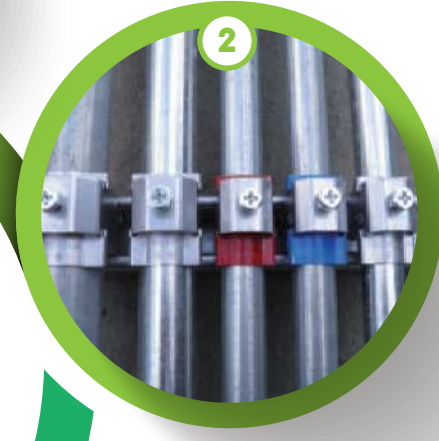

5. Hydraulic Cylinders

Steel pipe used for hydraulic cylinders for agricultural machinery and high hydraulic telescopic cylinder for construction machinery

PRODUCTS GOODS

We have manufactured only the best products through high-tech technology and efficient process system!

HUSTEEL has manufactured all kinds of products from the steel pipe for oil wells(OCTG), to those used for infrastructure, through efficiently controlled process with high-tech system, available in each factory, for the highest-quality products. It is with strict vigilance we enforce the quality of each product.

1. Steel Pipe for Piping

We have been manufacturing steel pipes that are tailored optimally for any task such as: general pipes used to transport low-pressure steam, water, and oil, while fuel pipes are used to transport gas, and pressure pipes for any use under the stress of temperature lower than 350°C.

2. Conduit

It is a steel pipe to protect electrical wires.

3. Steel Pipe for HRSG/ Boilers and Heat Exchangers

It is a steel pipe used for boiler tubes, heat exchangers at petrochemical plants, condenser tubes, and catalyst tubes. HRSG (Heat Recovery Steam Generator) tubes are used for the equipment to recover waste heat.

4. Square Steel Pipe

It is a steel pipe used for ships, civil and architectural engineering, and other structures. As it does not experience any exterior deformation, it is an excellent product without processing.

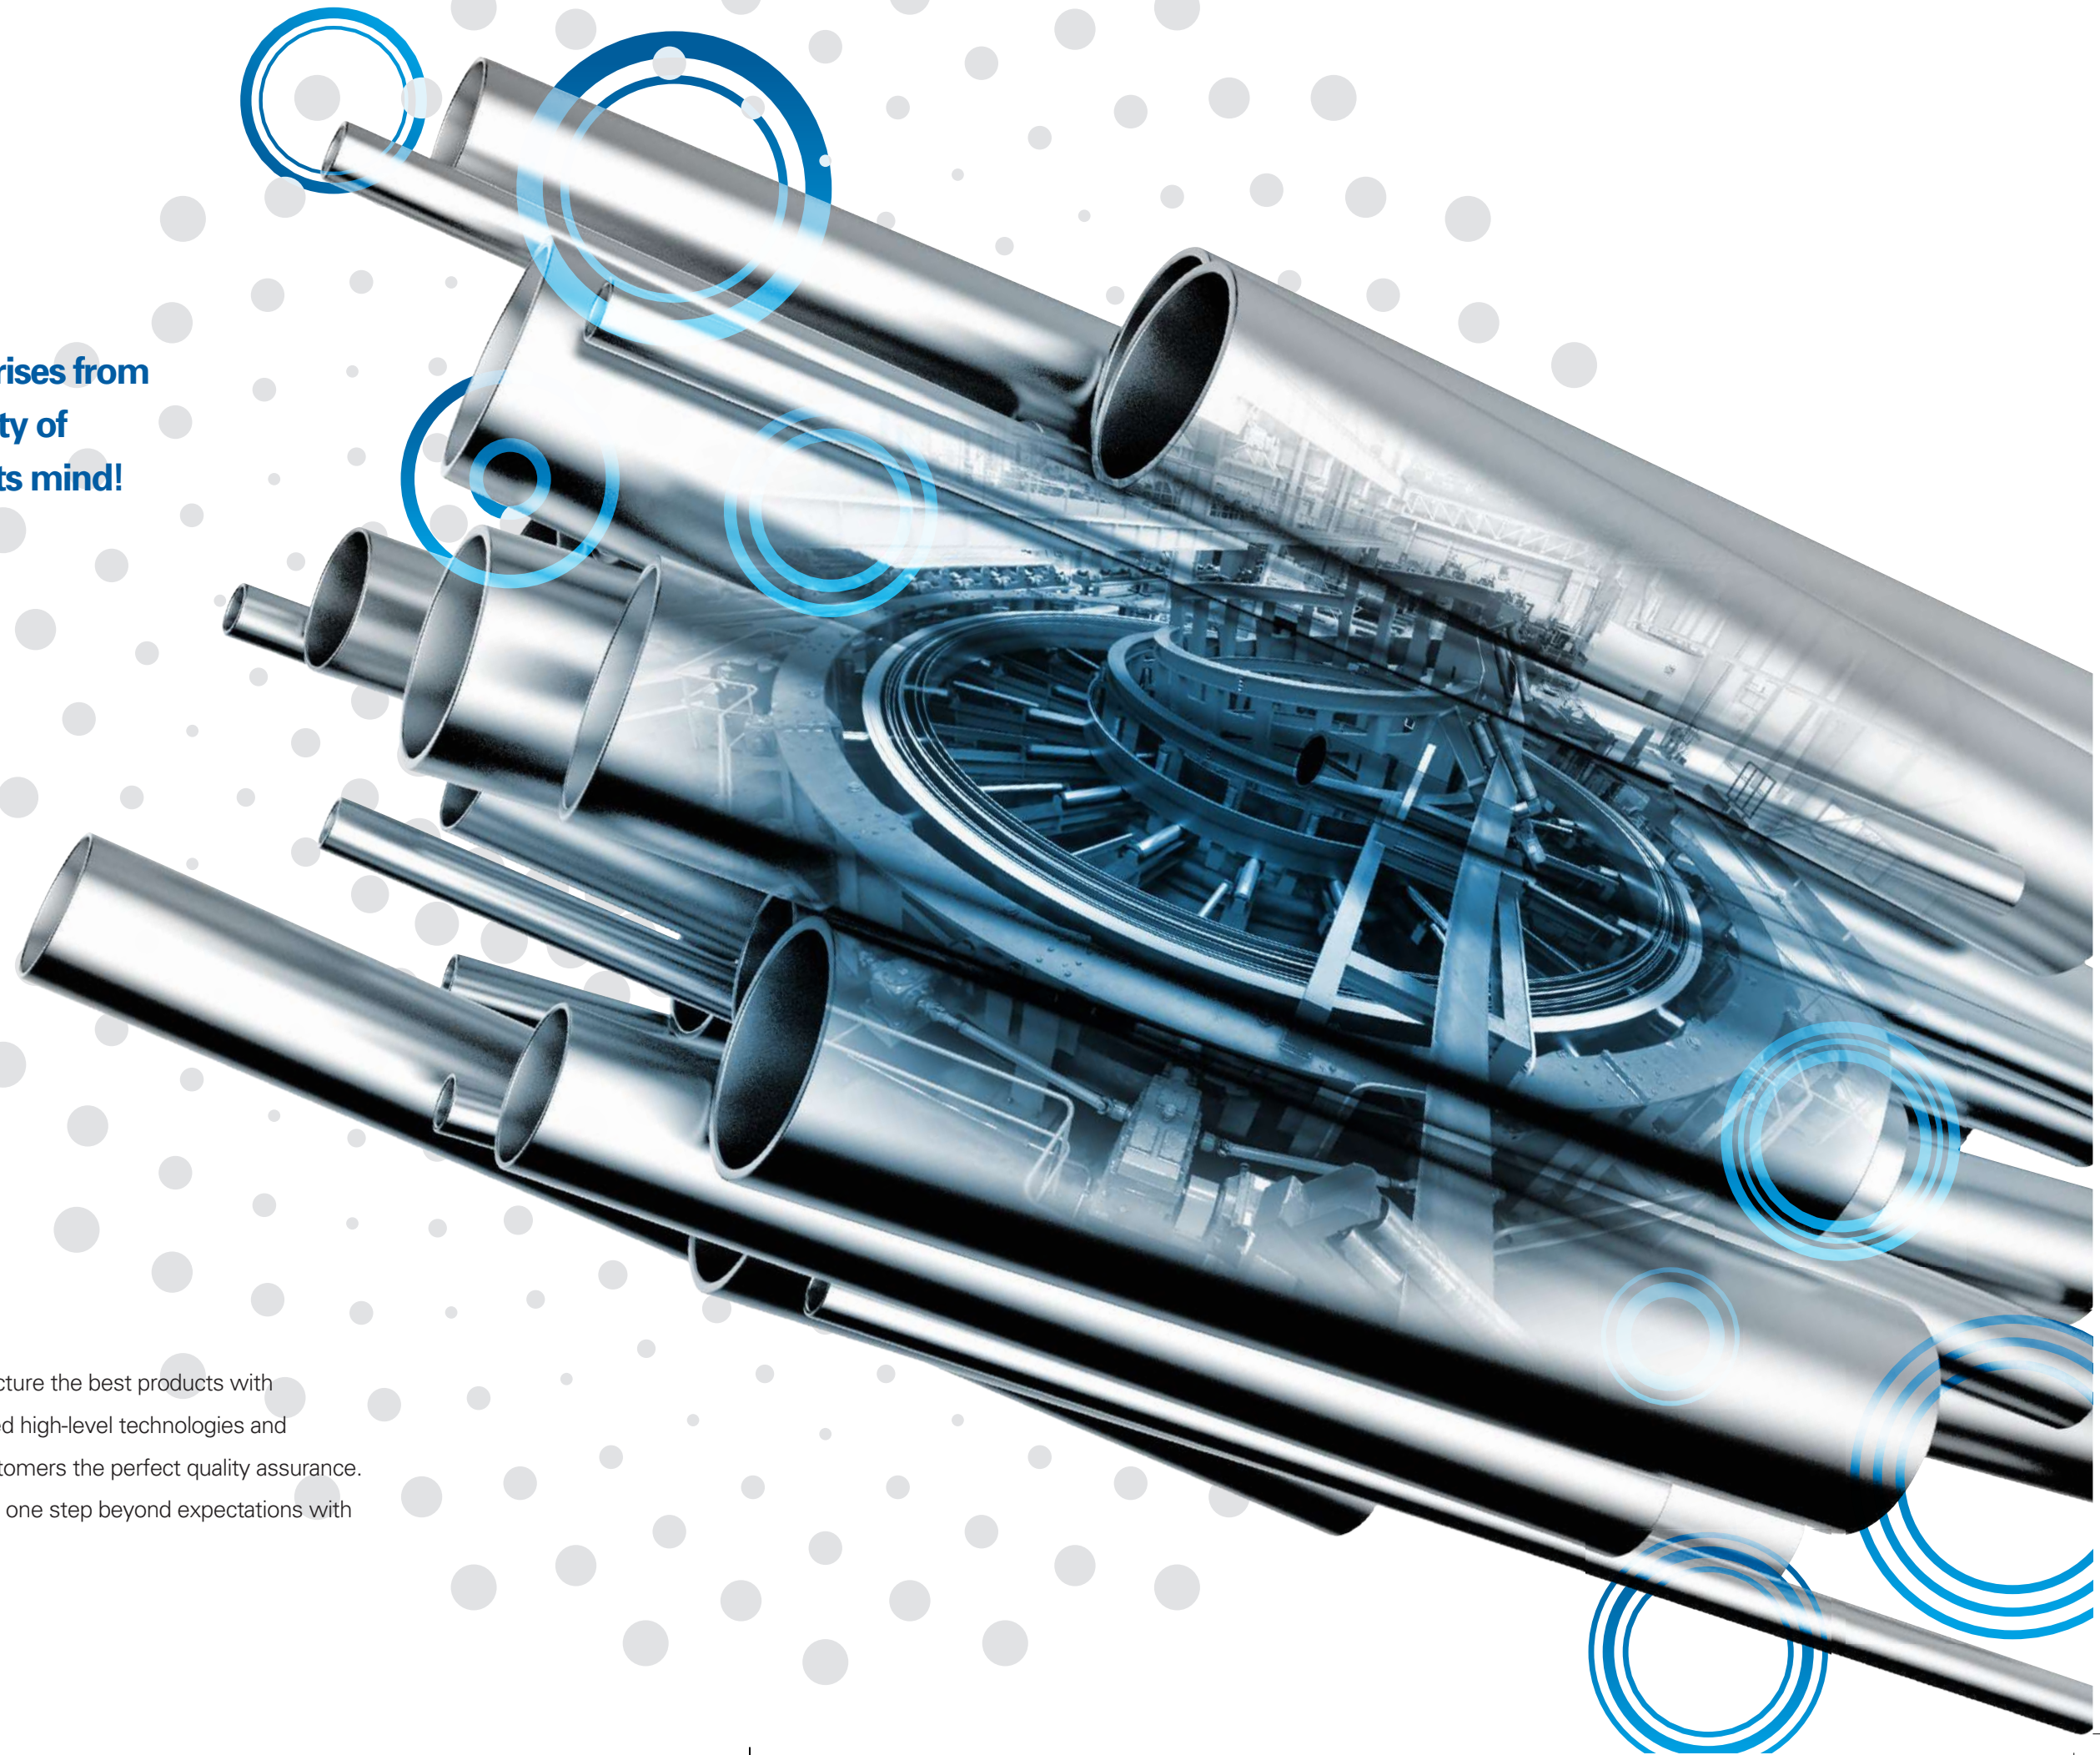

5. Steel Pipe for Structural Purpose

There are steel pipes for general structural purposes used in civil engineering structures, architectural structures, steel towers, piles, and pillars; steel pipes for machine parts such as in machineries, automobiles, bicycles and instruments; and steel pipe piles for structure foundation in civil engineering and architectural structures.

Quality Control

HUSTEEL's competitiveness arises from its values which puts the quality of its product at the forefront of its mind!

HUSTEEL has maintained its resolve to manufacture the best products with innovations and unwavering spirit. We introduced high-level technologies and equipment to give maximum satisfaction to customers the perfect quality assurance. HUSTEEL will always present the best products one step beyond expectations with advanced technology and competitiveness.

Certification

We have set higher standards for ourselves to further the quality of our services.

The best method to repay for the trust of customers is with the quality and service they deserve. HUSTEEL has acquired distinguished standard certifications which is evident of our strict quality control and quality assurance system in every product. In addition, each employee of HUSTEEL is united with the passion to strive in a competitive world through quality products and efficient processes.

Growing Global Factory

We are HUSTEEL, professional manufacturers of steel pipes with the global competitiveness, yielding to the production of 1 million tons annually!

HUSTEEL is equipped with cutting edge facilities at each factory in Dangjin, Daebul and Daegu; which has been leading the domestic steel pipe industry through technological innovations and unrivaled quality. For the first time in Korea, we introduced FFX-Mill, a high-tech pipe manufacturing equipment to have been acknowledged for its professionalism and independency in the manufacturing field of steel pipe, which prompted us to receive the evaluation of the one of the top noteworthy companies in manufacturing steel pipes with corrosion resistance and high-strength attributes. In 2015, we expanded our business to Daegu Factory equipped with STS manufacturing equipment which allowed us to grow into a general steel pipe company who can annually manufacture more than 1 million tons.

DANGJIN FACTORY

National representative Dangjin Factory is equipped with the technology suitable for High-strength Heavy Wall Thickness Pipes, a quality unique among its counterparts

Dangjin Factory introduced high-tech pipe manufacturing equipment, FFX-Mill, for the first time in Korea which realized the top productivity. In 2012, for the first time in the world, Dangjin Factory was fitted with equipment for high-strength heavy wall thickness pipes, through which it is available to manufacture up to the thickness of 18mm in 8" Mill. Dangjin Factory has established the best manufacturing equipment line in Korea.

Classification	Outer Diameter	Thickness	Major Products
Line 1	1/2" ~ 1"	MAX 3.0t	Conduit
Line 2	3/4" ~ 2"	MAX 3.6t	
Line 3	Φ25.4 ~ 2-1/2"	MAX 5.5t	HRSG / Steel pipe for boiler tube & heat exchanger
Line 4	2" ~ 6"	MAX 9.0t	Steel pipe for automobile, oil well & oil pipeline
Line 5	4" ~ 12"	MAX 15.0t	Material pipe, transportation pipe for concretes, and steel pipe for oil well & oil pipeline
Line 6	3" ~ 8"	MAX 18.0t	Thick material pipe, thick oil pipeline, thick steel pipe for oil well
Line 7	1" ~ 3"	MAX 10.0t	Steel pipe for oil well

* Steel pipe for ordinary piping and structural purpose can be produced with all of the equipment.

Equipment for High-strength Heavy Wall Thickness Pipe

It is able to manufacture up to 18mm thickness in 8" Mill for the first time ever. It is able to manufacture small quantity of multiple products such as thick material pipes, thick oil pipeline, and thick steel pipe for oil well.

Q / T 50 thousand tons

It is the induction type with an electrical control system. All processes are automated, which manufacture steel pipe for oil well, transportation pipe for concretes, and steel pipe for screw piles.

Galvanizing : 120 thousand tons

White pipes are manufactured by plating zinc to the inside and outside of steel pipes to prevent corrosion.

Non Oxidized Annealing : 18 thousand tons

It is able to manufacture steel pipe for HRSG / boiler tube, heat exchangers and automobile through the non-oxidized annealing process.

Line 1	40,000t	Line 5	200,000t
Line 2	60,000t	Line 6	120,000t
Line 3	90,000t	Line 7	80,000t
Line 4	110,000t		

Daebul Factory

Daebul Factory

DAEBUL FACTORY

The Daebul Factory procures 24" Mill which is the largest manufacturing size of ERW.

Daebul Factory introduced 24" Mill which was the largest manufacturing standard of ERW of its time in 1995 to manufacture various square pipes. The largest size produced in Korea includes a steel pipe with a large diameter of 22mm. In addition, Daebul Factory has acquired ISO14001 certification (Environment Management System) to develop into an increasingly eco-friendly company.

Classification	Outer Diameter	Thickness	Major Products
Circular Pipe	8" ~ 24"	MAX 22t	Oil Pipeline, Square Steel Pipe, SteelPipe Piles
Square Pipe	200 x 200 ~ 500 x 500 (8" x 8" ~ 20" x 20")		

Daegu Factory

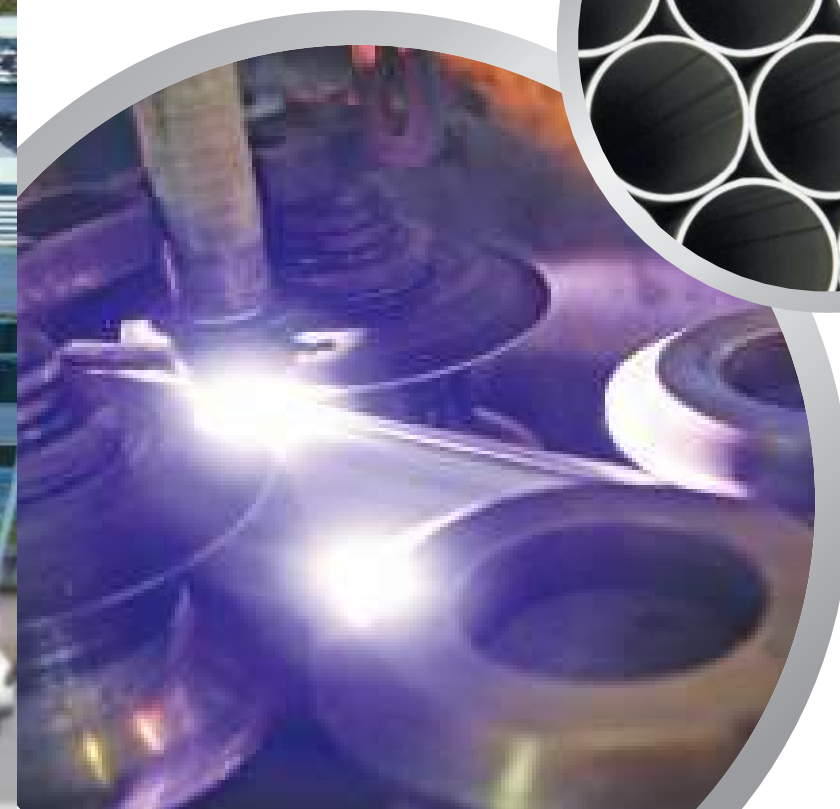

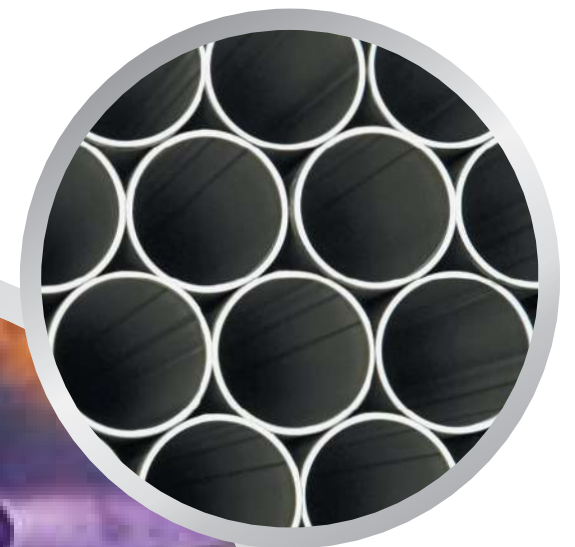

Daegu Factory

DAEGU FACTORY

Daegu Factory is equipped with the latest technology specialized in manufacturing STS.

Daegu Factory owns 6 units of mills for STS ordinary piping and 7 units of mills for STS pipes. With the introduction of the latest continuous pipe manufacturing technology, Daegu Factory has been largely improving the corrosion resistance and mechanical property through the removal of internal BEAD and heat treatment; and striving for the constant technology development.

Classification	Outer Diameter	Thickness
Stainless steel pipes for ordinary piping	15.88 ~ 216.3	0.80 ~ 3.0
Stainless steel pipes	13.8 ~ 318.5	Max 10.3t

Pipe Manufacturing Process

ERW Electric Resistance Welding

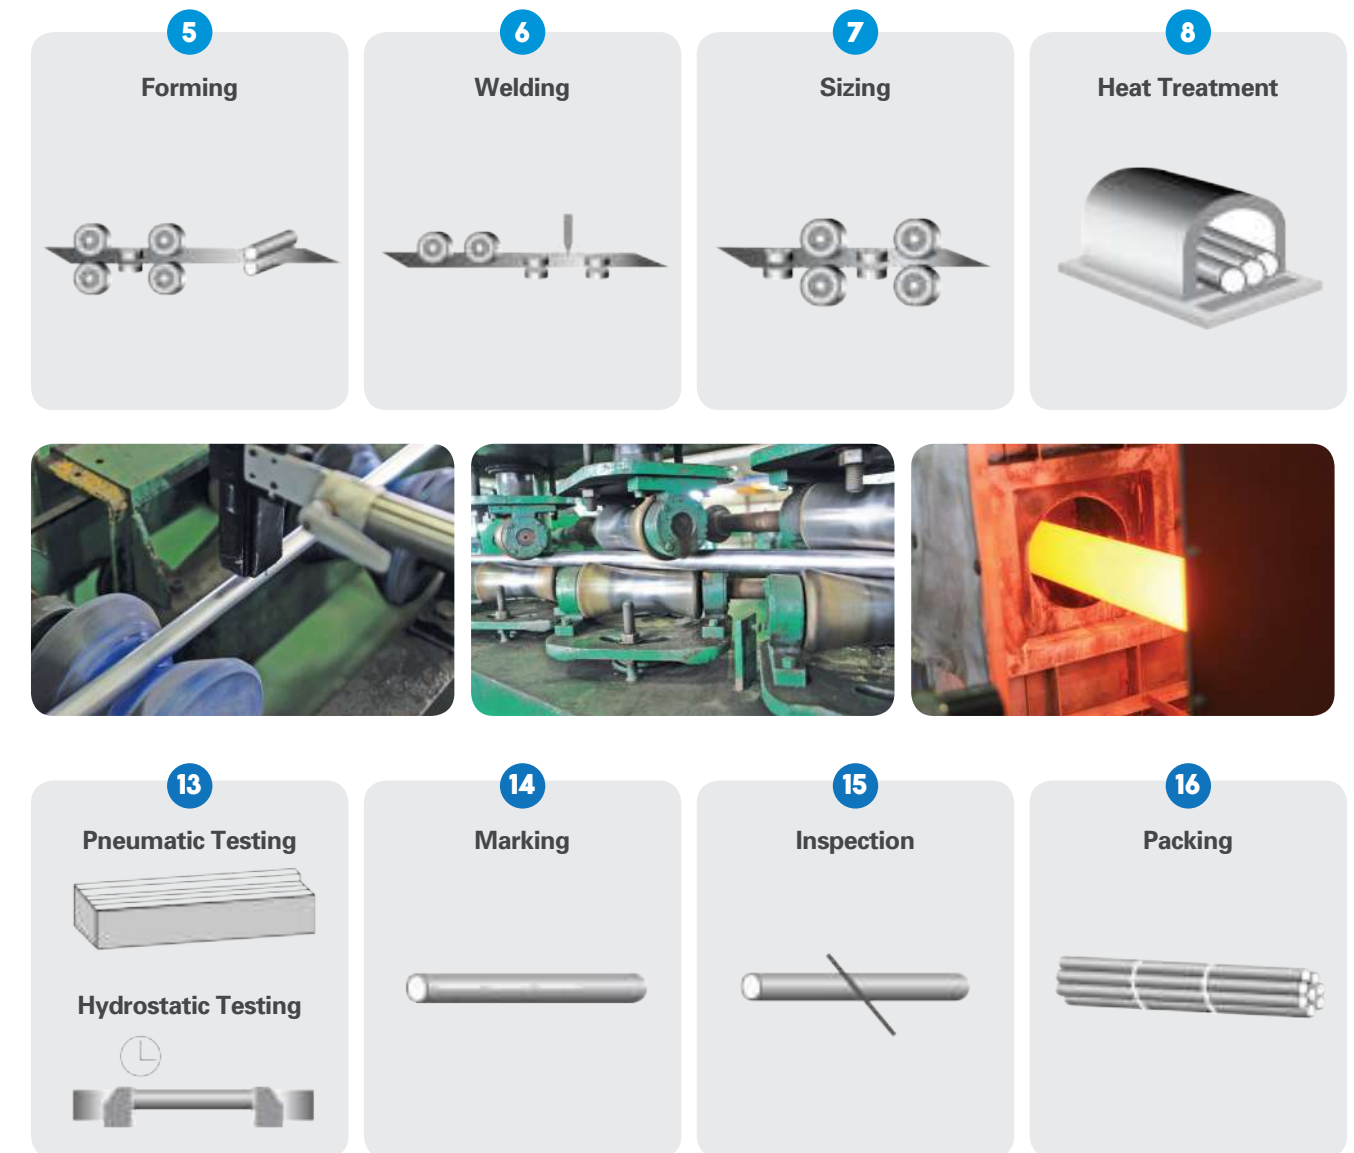

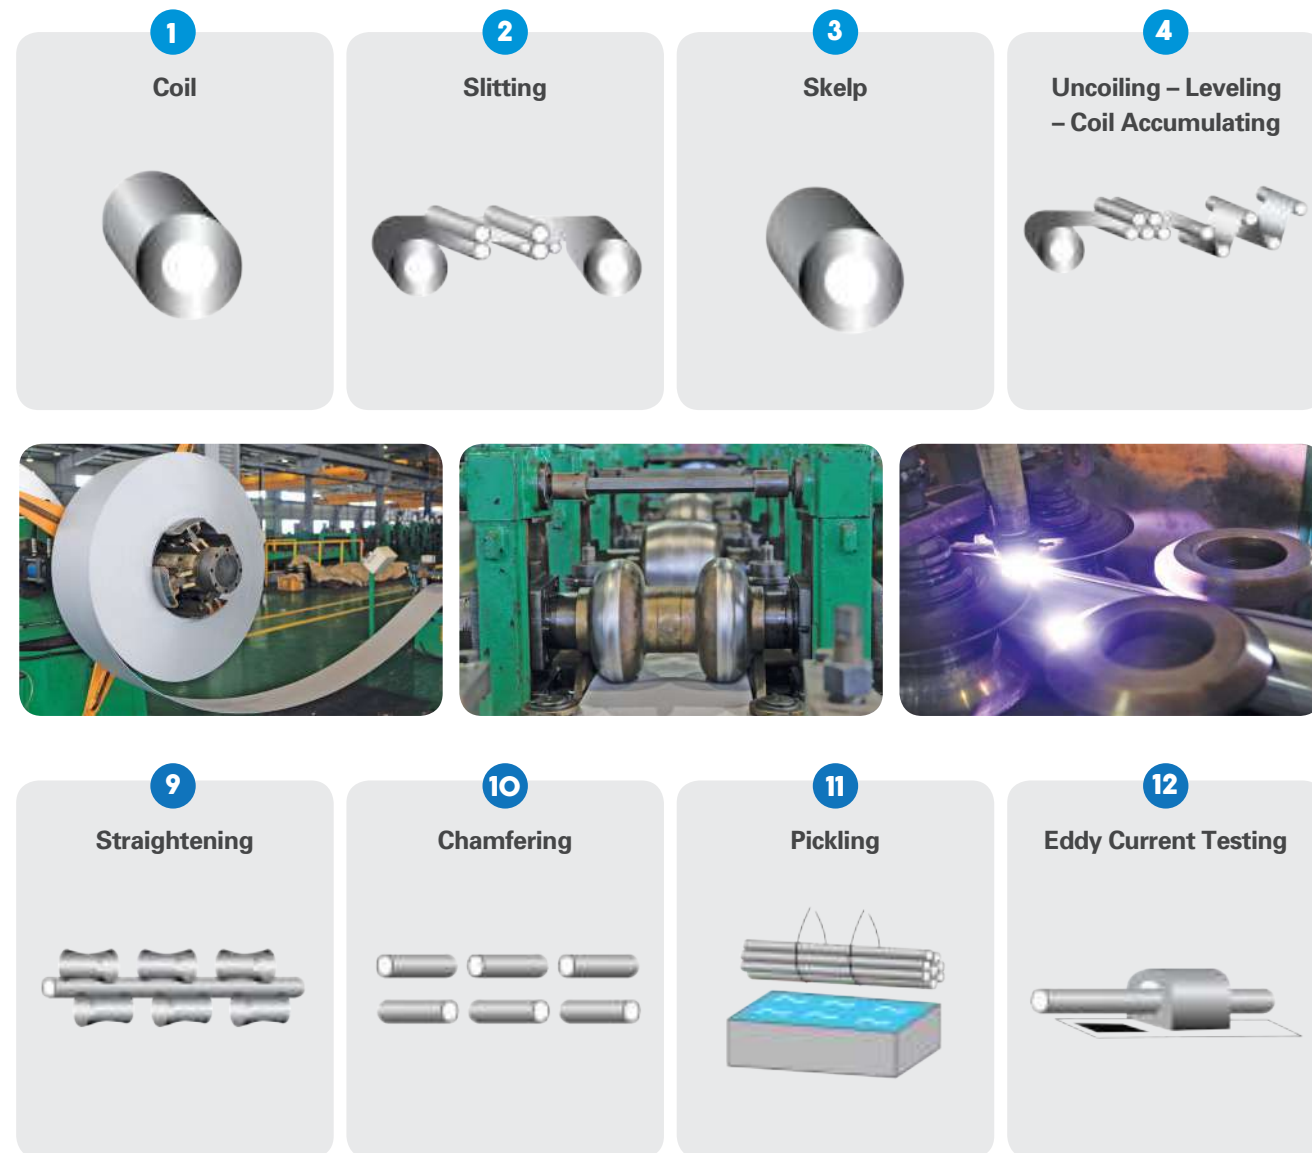

It is an engineering method to mold coils suitable for product specification through various methods and to use resistor generated on both edges by electrical resistance or electrical conductance to weld.

STS Manufacturing Process

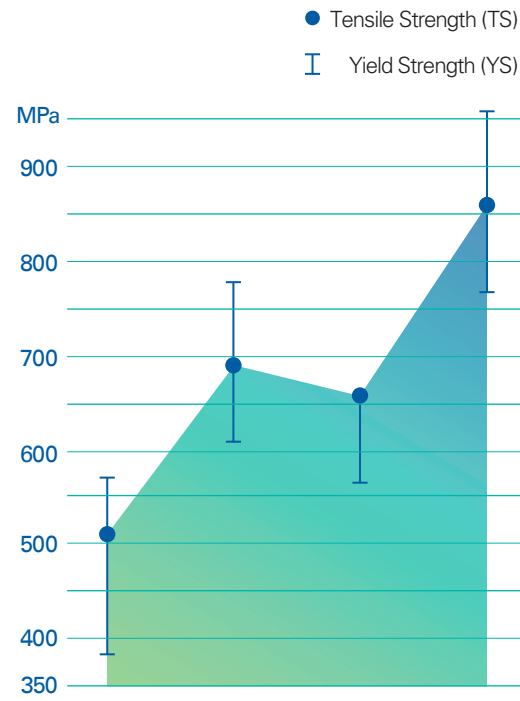

STS Stainless Steel Pipes & Tubes

We have introduced the latest technology for automatic continuous pipe manufacturing system expanding the production capacity to the annual scale up to 40 thousand tons. Removing internal BEAD and the heat treatment with new technologies, Our products enjoy increased corrosion resistance and improved mechanical property. It is the most suitable Stainless Steel Pipe for the required specifications of tubes for boiler and heat exchanger and steel pipe for piping.

Cultivate Corporate Culture

Company ideology emphasizes people and environment, It is the reason to expect the future of HUSTEEL!

The management philosophy of HUSTEEL parallel with the ideology of the company for the people and the technology in service to all has always aspired to be the hallmark of HUSTEEL's identity.

We will do our best to become a true leader of global steel pipe companies; mindful of the environment through irreplaceable products and constant innovations; HUSTEEL will maintain the resolve to provide the service for the benefit of our customers.

**Challenge
the world
with steel**

**HUSTEEL has been
with steel for 50 years,
and now we are moving
toward the world.**

SHINAN Group

SHINAN GROUP manages for a bigger future and a wider world with abandon and vision!

SHINAN GROUP has its roots in real estate development since 1960 and been with the development of Korea throughout overall projects of steel manufacturer, leisure, finance, service, and public interest; we lead the way to give the value and happiness to the life we touch. As a global company, we will continually move forward to bigger future and wider world beyond Korea to live by our corporate motto; of courage and conviction, accepting any challenges with spirit and pioneering attitude.

SHINAN CONSTRUCTION
INDUSTRIAL Co.,Ltd
SHINAN Co.,Ltd

**A company that designs
the dreams and future
New world to be created
by SHINAN**

SHINAN Construction has delivered the dreams and hopes of families all over the country of Korea. In order to make the housing a culture that raises the value of life, SHINAN Construction has been leading the businesses of housing such as Officetel, a multipurpose building; a luxurious villa including an eco-friendly apartment brand, ENSVIL and the businesses of civil engineering, architecture, environment and landscaping promoting the value of national lands.

Housing Project

Business area

Apartment / Officetel / Luxurious Villa / Multiple purpose building / Reconstruction / Redevelopment

ENSVIL

It is an apartment brand which contains the philosophy of SHINAN Construction: construct the world of beautiful harmony between man and environment to give greater happiness to customers.

METRO KHAN

It is the compound word of Metro which means 'CITY' and Khan which means 'EMPEROR'. It is the brand of high-class Officetel built by SHINAN

RIVIERA COUNTRY CLUB

A prestigious golf range with 50 years tradition representing capital area

RIVIERA C.C has kept its reputation in gentrification through the excellent accessibility within 30 minutes distance from Gangnam and the continuous facility investment. RIVIERA C.C is providing a high-class club house and a high-level course design installed with the dignity of a traditional golf course and is considered as one of the prestige golf course in Korea. Two golf training centers with astonishing scale and facilities and the PAR 3 course known as the holy ground for professional golfers. RIVIERA has been providing banquet service, seminar and wedding which are able to accommodate one thousand seats.

Address 183 Joongri-gil Dongtan-myeon Hwansung-si Gyeonggi-do
Opened Dat November 1972
Size 36 holes
Auxiliary Facilities Driving range 2 buildings (Cherry · Valley), Par 3 course, restaurant for prime Korean beef & black pork specialty, and banquet hall

RIVIERA C.C Golf Training Center

Valley Building
 Practice Facilities : 63 practice tee boxes, Par 3 9 holes, natural grass putting practice greens
 Auxiliary Facilities : Fitness Center, sauna, exercise prescription room, professional room, bag storage room, lodging, cafeteria

Cherry Building
 Practice Facilities : 69 practice tee boxes, Par 3 9 holes, natural grass putting practice greens, bunker practice area
 Auxiliary Facilities : Fitness Center, sauna, exercise prescription room, professional room, bag storage room

SHINAN COUNTRY CLUB

International level golf MECA is proud to be the longest 575m golf driving hole in Korea

The longest 575m hole in Korea and 27-hole course with different layouts allow golfers to experience unique experiences at every round. SHINAN C.C golf training center is creating the culture of one-stop golf academy that has never been seen in Korea; as it has a driving range of majestic scale reaching 300m driving distance, a swing analysis system in just the tee box, PAR 3 Course, a short game practice center, fitness center, and a dormitory for trainees.

Address 149 Gaewulmal-gil Gosam-myeon Ansong-si Gyeonggi-do
Opened Dat February 1999
Size 27 holes (Membership 18 holes+ Public 9 holes)
Auxiliary Facilities Golf Driving Range, Par3 Course, Banquet hall

SHINAN C.C Golf Training Center

Practice Facilities
 78 practice tee boxes (Ground floors 1 to 3), Par 3 Course, Bunker, Approach, Putting Greens, Practice Greens

Auxiliary Facilities
 Fitness Center, sauna, cafeteria, restaurant, golf shop, professional room, bag storage room, golf academy, and lodging

GREENHILL COUNTRY CLUB

Strategic play course spread out in the vast forest

GREENHILL C.C is located at Gwangju, Gyeonggido. It is an eco-friendly golf course that changes appearances with every season as a vast forest of 991,735m² covers the golf course where people can feel the majesty of nature. In a wide fair way, the continuous waving undulation can give a feeling of majestic nature and its delicacy. The green speed that has been maintained for the level of official games presents a natural and intuitive subtleness of golf.

Address 176 Naesun-gil Gonjam-eup Gwangju-si Gyeonggi-do
Opened Date July 2000
Size 18 holes
Auxiliary Facilities Club house, business room, restaurant, banquet hall

EVERIS GOLF & RESORT

Topmost golf resort that embraces the mother nature of Jeju Island

EVERIS GOLF & RESORT is a completed paradise of relaxation and romance as Hallasan Mt. towers in the east, meadow and ocean both seem to ebb and flow in the west, and a beautiful island Biyangdo adds to the picturesque landscape of Jeju Island. As the resort consisting of the 27-hole golf course which fully contains the essence of Jeju Island, a luxurious golf village with various sizes from 178m² to 621m², spa, and outdoor swimming pool, you can enjoy both the pleasant roundings and a comfortable rest in the heart of nature.

Address 1693-75 Pyeonghwa-ro Aewol-eup Jeju Special Self-Governing Province
Opened Date October 2006
Size 27 holes
Auxiliary Facilities Golf village (47 rooms), swimming pool, spa & therapy, training facility, and seminar room

WELLI HILLI PRAK

Enjoy leisure heaven with seasonal themes as well as multiplex themes in the General resort

WELLI HILLI PARK is 16,528,925m² in a pollution-free clean region at Hoengseong, Gangwondo at 700m elevation surrounded by "the gift of nature". It has been considered as the best comprehensive healing resort in Korea

As WELLI HILLI PARK consists of 20 international standard ski slopes, condominium, Youth Hostel, swimming pool, various sports facilities, restaurants, and banquet facility in the beautiful panoramic view of nature, people can have joyous and adventurous experiences even while committing to leisure. The thrill and relaxation are available years round.

Address 451 Gowon-ro Doonnae-myeon Hoengseong-gun Gangwon-do
Opened Date December 1995
Size About 48.3 million m²/International size 20 slopes(557.259m²)
Auxiliary Facilities Condominium (767 rooms), Youth Hostel (86 rooms), rental shop, indoor & outdoor sports facility, restaurants and bar, convenient store, banquet hall

WELLI HILLI COUNTRY CLUB

World level fantastic golf course experienced at clean highlands

WELLI HILLI C.C is located like a picture of watercolor among the beautiful scenery In the pristine highland of Hoengseong, Gangwondo. As it is surrounded by the mountain skirts, the south course Seems painted with majestic integrity highlighted by the basin and the north course designed for a loop shows a different atmosphere; It gives an exotic feel as if one is in a PGA golf course. Making the most of topographic characteristics it arouses the challenge seeking the spirit of golfers and maximizes the subtlety of golf. The golf course has received the flattering review for its design by Robert Trent Jones Jr, the worldy renowned golf course designer.

Address 360 Johang-ro Doonnae-myeon Hoengseong-gun Gangwon-do
Opened Date September 2007
Size 45 holes (Membership 36 holes + Public 9 holes)
Auxiliary Facilities Club house, banquet hall, restaurant

HOTEL RIVIERA CHEONGDAM

Best service to give relaxed life

HOTEL RIVIERA CHEONGDAM has received the grand prize for the service satisfaction in Korea and was selected for the best hotel in Seoul. It is the five-star hotel that represents Gangnam.

HOTEL RIVIERA CHEONGDAM, with the business motto of the best service for a small compliment, has provided only high-class service. As the hotel provides the guest rooms of various types, and with a banquet hall, restaurants, fitness club and sauna, you can comfortably and conveniently enjoy from global business to rest, banquet, and seminar.

Address 737 Yeongdongdaero Gangnam-gu Seoul
Opened Date December 1987 (Grand opening of new building in 2005)
Rating Four-star
Auxiliary Facilities Guest rooms (319), fitness club, sauna, banquet hall, restaurant

HOTEL RIVIERA GEOJE

Top hotel in Geoje with beautiful scenic view

HOTEL RIVIERA GEOJE is the only place people can enjoy the magnificent view of South Sea and a view of Oedo and Haegeum River in one glance from their guest rooms. From the observatory of the hotel, you can feel the majestic view of South Sea as if it is just within grasp. Through the dock connected to the hotel, you can enjoy the tour in Oedo and Haegeum River. Also, as the hotel provides the auxiliary facilities of a fitness club and hot spring sauna, etc., you can fully enjoy the joy of rest and travel. As the hotel consists of large scale banquet hall, various events can be proceeded such as wedding and large-scale seminar.
